CAREER OBJECTIVE

An analytical, dynamic, committed and enthusiastic young man who is challenged by new opportunities, willing and excited to learn and develop professional skills and competence to help in the achievement of organizational goals.

I'm highly motivated and caring in personality. I work well as part of a team and have earned excellent work experience by developing mobile, windows and web applications for various organizations.

I have over 9 years working experience.

KEY COMPETENCES

- High sense of time and punctuality
- Ability to work with minimum supervision
- A team player with excellent written, oral, interpersonal and communication skills.
- Able to handle multiple assignments under high pressure and consistently meet tight deadlines
- Computer Literate – Proficient in Software Development, Programming and Mobile App Development
- Very good around **WordPress, E-Commerce, Flutter (Dart), ASP.NET, C#, MS SQL Server, MySQL, HTML5, CSS 3, Bootstrap.**

ACHIEVEMENTS

- Developed GAGcars, a vibrant community of car enthusiasts, buyers, and sellers who share a passion for automobiles.

- Developed Ghana's Most Beautiful (GMB) 2020 app that was used to vote for the GMB contestants. (Ghana's Most Beautiful is a beauty pageant TV program that educate Ghanaians and the global community about the various cultural values and heritage in the sixteen regions of Ghana.

- Developed a social media platform for Zylofon Media called Minglex; an online platform that seeks to bringing celebrities and their fans closer (MingleX).

- Developed an electronic voting system for Presbyterian University College, Ho.

- Designed and managed the 2015 edition of Vodafone Ghana Music Awards website.
